Dear Dr. Rianawati ,

Thank you for your email.

European Journal of Educational Research (EU-JER) is an open access, double blind peer reviewed, online academic research journal. EU-JER aims to provide a forum for original and

theoretical studies in education. EU-JER has just been started being indexed in SCOPUS, ERIC, DOAJ et al. All content of EU-JER is subjected to peer-review and all articles published in

EU-JER have undergone rigorous peer review (double blind peer review), by members of the editorial board and review panel. Editor makes a pre-assessment of the submitted manuscripts

in terms of journal scope, manuscript format and research quality. If it is suitable for publication, editor directs the manuscript to two reviewers expert in the field of publication. After both

reviewer's feedback, editor decides if the manuscript will be rejected, needs revision or it can be published directly. The review process is taken about 4 months.

We have considered your questions:

1- The time required for the review process depends on the response of the referees. The review process usually takes between 2-6 months, depending on the topic and the reviewers'

availability. However, the typical time for EU-JER is approximately 4 months. So we can not say exactly that your paper would be published in our October-2022 issue.

2- There is no fee for manuscript submission to EU-JER. However, EU-JER charges article processing fee to the author(s). Because, our journal normally works by subscription, in order for

the articles to have open access, the author(s) is/are required to pay an article processing charge. EU-JER is an open access journal, meaning all articles are available online immediately

on publication to anyone, anywhere, at any time. The journal has no other choice but open access. To support open access, the journal has an Article Publishing Charge (APC). The

author(s) will be asked to pay the APC [USD 750] -the tax of receiver country USD 50 will be added to this APC- to cover publications costs such as assigning doi number, preparing the

galley proof of the paper, professional editing et al. It is because the journal editors do not want rigorous work to be prevented from publication. There is no waiving policy in case of a lack

of funds to pay this APC. Any discount or waiver of the APC are not available for authors. This charge applies to accepted articles.

You can find all necessary information about submission of a manuscript from our web site. (<https://www.eu-jer.com/instructions-for-authors>)

If you have any other question, please do not hesitate to contact me.

Best regards,

Ahmet C. Savas, Ph.D.

Dear Dr. Rianawati Rianawati,

Thank you for your interest in our journal.

We have received your manuscript entitled "Character Teaching; effect on College Student Social-Emotional Character Development; Case in Indonesia" (Manuscript EU-JER

ID#22091703093425).

However, our initial review of your paper has shown that your paper is not suitable according to our journal's template. So the editorial process has been canceled.

Please download and consider our paper template (See https://www.eu-jer.com/eu-jer_paper_template.docx).

Paper template: Author(s) must use this template for their paper(s). As you can see from the template, the manuscripts should include the following parts: *A full title, a short title to be used*

as a running head, authors' names, authors' affiliated institution name(s), authors' email addresses, authors' ORCID numbers, abstract, keywords, authorship contribution statement,

introduction, literature review, methodology, findings/ results (separately), discussion (separately), conclusion (separately), recommendations (separately), limitations (separately), and

references.

* Please apply the template to your paper thoroughly. (i.e., fonts, titles et al.)

* Your paper needs proofreading by a language expert.

* **Provide English translation of the title of non-English sources as the below :**

Eg.

Bussieres, E.-L., St-Germain, A., Dube, M., & Richard, M.-C. (2017). Efficacite et efficience des programmes de transition a la vie adulte: Une revue systematique [Effectiveness and

efficiency of adult transition programs: A systematic review]. *Canadian Psychology/ Psychologie canadienne*, 58(1), 354–365. <https://doi.org/10.1037/cap0000104>

Note for this example that Canadian Psychology/Psychologie canadienne is a bilingual journal published with a bilingual title; if the journal title were only in French, it would not be

necessary to translate it in the reference.

* **Please edit all citations and references according to APA 7 style** (See <https://www.eu-jer.com/citation-guide> and <https://www.scribbr.com/apa-style/apa-seventh-edition-changes/>).

Eg. The publisher's location is no longer included in the reference. URLs are no longer preceded by "Retrieved from" unless a retrieval date is needed. The website name is included

(unless it's the same as the author), web page titles are italicized, and et al. DOIs are formatted the same as URLs. The label "DOI:" is no longer necessary. The in-text citation for works

with three or more authors is shortened right from the first citation. You only include the first author's name and "et al.." All the titles of the articles and books should be lowercase.

Please edit your paper according to this paper template and resubmit your edited paper by entering co-authors with a new ID to our system in a week. We have already canceled your this

I/we will very happy and proud if my/our manuscript can be published on your reputeded journal.

The reviewer wrote;

“My main criticism of the paper is still valid. The authors have not still given any information about how character instruction was implemented in the study. How was this teaching implemented in this study? What did the students and researchers do during the data collection or instruction? What were the tasks of the students and researchers? These details should be explained explicitly. By the way, the text still has grammatical errors. The tone of the language in the method should be in the past tense. If the authors explain the details of character education and correct the English language of the paper, I will be okay with the revised paper in the next round”.

My / our comment put on methodology section with blue color, I/we also provided past tense tone for methodology section as reviewer suggestion. Furthermore, other reviewer/author give suggestion to change my/our references to APA 7 Style, and I/we was changed on yellow color on references.
